

# Introducing the E-Z REEL and TENNIS POST

Another Quality Product from

Proud USA Manufacturer

Thanks to Douglas, one of America's most popular tennis post styles just got better. When it comes to this style of post, now you don't have to compromise on quality, looks or performance for your customers—in order to get a great price! It's an E-Z Choice!

## The new E-Z TENNIS POST from Douglas® offers you:

**Better Quality** - These posts use Douglas® quality materials and craftsmanship helping ensure your customers will be happier longer—reducing call-backs for you.

**Better Looks** - Douglas' sleek top cap design, smooth post texture, and premium powder coat finish creates a sharper look for your customers—and gives you another tennis post you can be proud to recommend and install.

**Better Performance** - Enhanced E-Z REEL components increase the strength and stability of the reel mechanism. When combined with the smooth action of the high-end top cap, the E-Z TENNIS POST delivers a more solid and consistent quick-winding and quick-release performance than you would expect with this style of post.
